#### Teaching Experience

Currently, I am a teaching associate for the postgradute unit ETC4130, a course with advanced stochastic calculus elements, and ETC3430 & ETC3530, two applied probability & statistics undergradute units at Monash University.

In addition, I was a teaching and marking assistant for MATH367, an advanced graph theory course and a TA for MATH480, an advanced measure-theoretic probability theory course, at the University of Liverpool (2016-2017). I also was a marking assistant for MATH367, in the previous year at the University of Liverpool.

I was a teacher for a two month period in 2015 at Varvakios Pilot School, Greece, organized by the University of Athens, Greece. This placement provides useful experience since it helps prepare the student for teaching large classes, organizing a course, and also gives the student an opportunity to teach a few lectures.

I have been a TA regularly since February 2014, in mathematics, with experience TA'ing the subjects of (stochastic) calculus, probability & statistics, network theory with applications, algorithms and programming. A full list of courses that I have TA'ed is below.

#### Monash University

ETC4130 - Asset liability management (Stochastic Calculus)

ETC3530 - Contingencies in insurance and pensions (Probability & Statistics)

ETC3430 - Financial mathematics under uncertainty (Probability & Statistics)

#### University of Liverpool

MATH480 - Probability Essentials for Financial Calculus

MATH367 - Networks in Theory and Practice

#### University of Athens

MATH141 - Computer Science I (MATLAB)

MATH101 - Calculus I

#### OTHER WORK EXPERIENCE AND SKILLS

I was an analyst and facilitator for the Bayesian Argumentation via Delphi (BARD), a multi-year project funded by IARPA, organized by Monash University during July-August 2018. BARDs principal investigators include experts in Delphi from the University of Strathclyde and experts in the psychology of causal reasoning from Birkbeck College London and University College London.

During I received the Computer Literacy Certificate from the University of Athens, Greece, based on the number of Information Technology modules successfully passed.

I received the Computer Literacy Certificate from the University of Athens, Greece, based on the number of Information Technology modules successfully passed.

- Programming: LATEX, MATLAB, Mathematica and others.
- Operating Systems: Apple Mac OS X, Linux, Microsoft Windows, Oracle Solaris and others.
